Declaration of Major _____ or Application for Graduation _____ (check one) Form

A Major is declared in the sophomore year prior to the spring advising period. An Application for Graduation for each major is due in the junior year prior to the end of the spring semester. Once you declare your major, update this sheet each semester to keep track of your requirements and be ready to apply for graduation.

- Transfer students must complete the equivalent of the normal junior and senior year credit hour requirement in chemistry (a minimum of 18 hours) at R-MWC.
- The BS degree is not the American Chemical Society (ACS) certified degree. The ACS requires fifty semester hours of chemistry and all ACS certified majors earn the BS degree.
- Additional course required as prerequisites for courses required for the Chemistry major include MATH 149 and 150 and PHYS 115, 115L, 116, 116L, or their equivalents.

***Specify the course you are using to fulfill the requirement. Also use this space to list transfer courses or another R-MWC course you are being allowed to substitute. Note: The Request for Substitution of Major Requirement Form must be completed for substituted courses.**

I am aware of the specific requirements for this major and recognize that I must complete all requirements with a minimum QPR of 2.0 (rounded). I understand that I am responsible for completing successfully all courses, for determining that scheduling will allow me to fulfill requirements, including the senior program, and for obtaining approval for any courses taken at another institution.
