¹In order to complete this major in three years at Randolph College, the general physics sequence and calculus I and II must be taken in the first year.

- A student cannot complete both a physics degree and the engineering physics degree.
- All general education requirements must be completed at Randolph College.

***Specify the course you are using to fulfill the requirement. Also use this space to list transfer courses or another course you are being allowed to substitute. Note: The Request for Substitution of Major Requirement Form must be completed for substituted courses.**

I am aware of the specific requirements for this major and recognize that I must complete all requirements with a minimum QPR of 2.0 (rounded) to graduate from Randolph College. For admission to the fourth year at an associated engineering school, I am aware that I need a 3.0 or better QPR in both my major and overall. I understand that I am responsible for completing successfully all courses, for determining that scheduling will allow me to fulfill requirements, including the senior program, and for obtaining approval for any courses taken at another institution.
