

## Responsible Conduct of Research Training Certification Form

Name of Researcher: \_\_\_\_\_  
 Dates of Participation in the Research: \_\_\_\_\_  
 Principal Investigator (PI) Name: \_\_\_\_\_  
 Funding Agency: \_\_\_\_\_  
 Grant Title: \_\_\_\_\_

Provide information below for each instructional area, the method of delivery (e.g. seminar, individual training by the PI, CITI training, etc.), or a reason why training in an instructional area was not provided.

Projects funded by the National Institutes of Health require at least eight hours of face-to-face training.

For all projects: Research misconduct, human subject research, and animal subjects must be covered through experiential component training (e.g., facilitated discussion, discipline specific mentoring) if the topic is relevant to the research project.

<b>Responsible Conduct of Research Instructional Area</b>	<b>Method of Delivery or Reason Training Not Provided</b>	<b>Date Training Completed</b>
Authorship		
Collaborative Research		
Conflicts of Interest		
Data Management		
Environmental and Social Dimensions of Engineering Research		
Export Controls and National Security		
Financial Responsibility		
Mentoring		
Peer Review		
Plagiarism		
Research, Ethics, and Society		
Research Involving Human Subjects		
Research Misconduct		
Using Animal Subjects in Research		

I certify that I received training in all research areas listed in the chart above. I acknowledge that I have read the College's Responsible Conduct of Research policy located on the Office of Sponsored Programs webpage. If this project was funded by the NIH, I also certify that I have received at least eight hours of face-to-face training.
